

## Hardware

### Everything You Need in One Place.

The world's leading mobile POS for restaurants uses best-in-class hardware and networking providers for the optimal all-in-one system.

#### TERMINALS

Lavu partners with Apple to provide the best in technology for POS terminals. Apple products cannot be surpassed for speed, power, reliability, and easy movement around your restaurant's floor. Because Apple products work together as a family of devices, your POS acts as a true system, with all parts working together—creating smooth and seamless business operations.

Options include the iPad Pro 12.9-inch, iPad Pro 9.7-inch, iPad mini 4, and iPad Air 2.

#### PRINTERS

Lavu has chosen Epson® printers for a simple reason: They're the best. And in turn, Epson has chosen Lavu to be an Epson EnVision<sup>SM</sup> Partner Plus—a partnership that provides an unbeatable solution for kitchen and front-of-house printing.

Together, Lavu and Epson have improved printer functionality right out of the box. We provide custom firmware for advanced functionality, enabling paper reduction, embedded logos, and communication with peripheral devices such as RFID readers, credit card readers, and much more.

#### NETWORKING

The last thing you want on a busy Friday night is a slow network, and we're here to prevent that from ever happening. Lavu uses only top-performing networking, and we have provided certification to select routers, access points, and switches. If you want the best in networking, just ask if it's Lavu-certified, and you'll know the answer.

Options include routers and switches in a range of sizes.

## KITCHEN DISPLAY SYSTEMS

Efficiency is crucial, and there's no better way to increase efficiency than through a Kitchen Display System. Lavu's KDS allows your kitchen staff to always know exactly what is needed and when. Orders are sent from any iOS device running Lavu to a station in the back of house, where it is broadcast on a monitor—for easy viewing and order prep.

With a Lavu KDS in place, your restaurant operations will become more streamlined, with a system that keeps every staff member fully in the know.

## CASH DRAWERS

Lavu partners with APG cash drawers, top of the line for security, durability, and reliability.

Offered in a range of sizes, plus accessories such as tills and under-counter brackets.

## CREDIT CARD READERS

Our credit card readers offer a range of portable, easy, and secure swiping options.

Options include the PayPal EMV Reader, for industry-leading processing rates.

“If you're looking for a way to really modernize and use technology to your advantage, Lavu would be a great solution.”

— Mark Nisler, Zack's Oak Bar and Restaurant
