DELIVERY / TAKE OUT / CATERING

HotSauce™ Express is one of the easiest and most cost effective ways to manage your delivery, carryout, and catering services. Integrated with HotSauce™ Table Service or HotSauce™ Quick Service, HotSauce™ Express can keep track of important customer information such as addresses, phone numbers, order history and unique customer requests. Whether your employees are answering phones, working the counter, preparing orders, or expediting deliveries, the intuitive POS screens are tailored to prompt them through their specific tasks quickly and accurately.

FEATURES

Customer Database

HotSauce™ Express provides a built-in customer database that can track and maintain customer and purchase information. Some of the features include:

- Tracking customer information, such as addresses and phone numbers
- Maintaining a history of customers' purchases
- Compiling information for future marketing use

Delivery and Driver Routing

From pizza to Chinese food, the HotSauce™ delivery module will help facilitate every aspect of the delivery process. Some of the features include:

- Order tracking to help managers determine delivery stages
- Order pickup restriction to prevent drivers from skipping orders
- Map integration for delivery drivers
- Driver management tool to identify where each driver is, and which drivers are available
- Consolidated reports for each driver showing the number of orders delivered and the amount of sales that need to be cashed in
- Delivery reimbursement for drivers
- Profit center tracking

Catering Functions

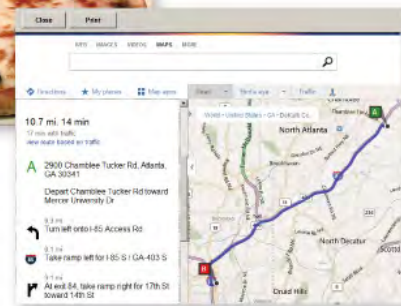

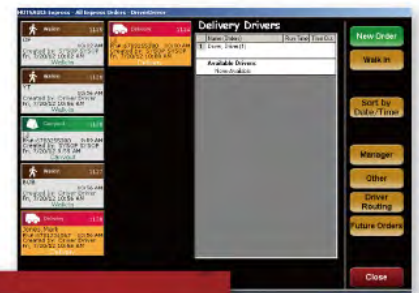

HotSauce™ Express allows you to manage catering and delivery orders more efficiently, regardless of whether they are for now or upcoming dates. Some of the features include:

- Automatically creates and holds tickets schedules for later dates
- Allows you to close tabs to "In-House Accounts," which enables you to bill frequent customers weekly, or even monthly

Pizza Screens

HotSauce™ Express also offers special functionalities for pizza restaurants, giving you the flexibility to cater to a variety of customer requests. Displayed on one interactive screen, these modifiers make changing the pizza crust, size, and toppings both fast and easy.

HotSauce™ technicians will work with you and your staff to optimize the Express system to accommodate your dynamic business needs.
